EXECUTIVE SUMMARY

Seeking an opportunity to work in a challenging environment where I can refine my skills and expand my knowledge in web development. I have experience with HTML, CSS, Bootstrap, JavaScript, and Python-based technologies such as Django, along with MySQL. Skilled in both front-end and back-end development, I bring a logical and problem-solving mindset to every project. Looking to leverage my technical skills and passion for web development as a Web Developer.

TECHNICAL SKILLS

Development Skills: HTML, CSS, JavaScript, Tailwind CSS, Bootstrap, React.js, Python, Django, Tkinter

Tools & Platforms: Git, GitHub, VSCode, Netlify, Vercel

Concepts & Methodologies: Web Design, Responsive Design, Web Deployment, OOP, Debugging

PROFESSIONAL EXPERIENCE

Software Web Developer Intern (Front-End And Backend)

IDM Techpark - Erode.

- Gained practical experience in designing, developing, and deploying web applications.
- Collaborated with team members to enhance functionality and optimize performance

Embedded Systems (Arduino & Proteus)

ETS Academy - Erode.

- Gained practical experience in microcontroller interfacing and embedded systems development.
- Designed and simulated basic electronic circuits using Proteus Design Suite.
- Developed simple projects like LED blinking, sensor interfacing, and motor control using Arduino UNO.
- Learned to write and upload code using the Arduino IDE and troubleshoot common hardware/software issues.

EDUCATION

Al-Ameen Engineering College - Erode

Bachelor of Engineering in Electronics and Communication

2021 - 2025

PROJECTS

Zubkart – E-commerce Website

- Developed a fully functional and responsive e-commerce website for clothing and accessories using HTML, CSS, and JavaScript.
- Implemented dynamic product listings, promotional banners, and category navigation for a smooth shopping experience.

Portfolio Website

- Designed and developed a responsive personal portfolio website to showcase my skills, projects, and experience.
- Implemented smooth scrolling, animations, and interactive UI elements using vanilla JavaScript.
- Ensured cross-device and cross-browser compatibility with mobile-first, responsive design techniques

Text-to-Voice Converter

- Created a browser-based text-to-speech converter using the Web Speech API, allowing users to input text and hear it read aloud. Implemented event listeners to trigger voice output on button click, providing real-time feedback without page reload.

Interactive Calendar Web Application

- Designed and developed a fully functional calendar interface using vanilla JavaScript, capable of dynamically updating months and years based on user interaction.

Calculator

- Designed and developed a responsive calculator application using HTML, CSS, and Bootstrap to ensure cross-device compatibility and a clean UI.

Student Database Management System

- Developed a GUI-based student database application using Python and Tkinter for easy data entry, update, and deletion.
- Applied python OOP concepts to create a clean and scalable architecture.

Image Gallery

- Developed a dynamic Image Gallery application using ReactJS for efficient rendering and component-based architecture.
- Utilized HTML, CSS, and Bootstrap to create a clean, responsive UI layout adaptable across various devices and screen sizes.

CERTIFICATIONS

Full Stack Developer

I have successfully finished a complete course in the Full stack in IDM Techpark - Erode. which allows me to have the tools to create responsive and end to end web applications. I'm enthusiastic about applying these abilities to help work on innovative projects and keep developing as a developer.
